Industry Structure & Developments

The Non Banking Financial Services (NBFC) industry in the private sector in India is represented by a mix of a few large companies with nation wide presence and a large number of small and medium sized companies with regional focus.

Indian Non-Banking Finance Companies (NBFCs) faced a challenging economic environment during 2013-14 on account of subdued economic, industrial and manufacturing growth and relatively high credit costs due to increased risk perception in the economy. RBI had to calibrate monetary policy to balance weak growth with concerns over external and price pressures. Slowdown in industrial activity contributed to stress on asset quality of NBFCs as the payback capacity of companies were affected severely during the last year.

The regulatory scenario for NBFCs has been undergoing changes with newer guidelines and regulations being introduced; In addition, the enactment of the Companies Act, 2013 which replaced the 60-year old Companies Act, 1956, the Reserve Bank of India, which is the main regulator of NBFCs, has from time to time come out with various guidelines, and most recently with extensive and elaborate guidelines and norms on corporate restructuring for the NBFCs, etc.

Business Review

Your Company's operation continues to be mainly focused on the area of financing and investments in shares.

Leasing

The Company did not conduct any leasing activities during the year.

Opportunities & Out Look

During FY 2013-14, the economic activity in India remained subdued as the economic slowdown bottomed out due to pressure on exchange rate and continuous spell of global financial turbulence caused by capital outflows. However, strong policy measures helped the currency to stabilize, rebuild reserves, and narrow the excessive current account deficit. The Indian economy remains weak due to persistent inflation, fiscal imbalances, bottlenecks to investment, and inefficiencies that require structural reforms. Without a systemic resolution to these, growth is forecasted to pick up modestly.

Gradually strengthening regulatory framework for NBFC's will lead to more robust governance structures and better performance. Competition within the financial services sector is expected to strengthen, along with the entry of new banking players, but your Company sees them as opportunities for improvement. Your Company shall continue to pursue creation of fresh assets, project development activities by way of participating in debt/equity which shall result in ample opportunities in future and resultant growth of your Company.

Challenges

A key challenge faced by NBFCs is the ability to respond to dynamic market conditions and provide a wide-ranging product offering with stringent due diligence. The ability of credit institutions to compete in the market effectively will depend upon their capability to raise low-cost funds. Regulation and development need to be in tandem to provide the right environment. Despite that we are trying to overcome the challenges and expect a good result in future.
